

Excellence in Research @ Uninsubria

Our University has launched the European accreditation program "**Human Resource Strategy for Researchers - HRS4R**": this is the European Commission "label" crediting research organizations willing to implement the principles of the European Charter of Researchers and the Code of Conduct for their recruitment.

A key milestone in this program is the perception of the researchers community towards the actual implementation of these principles in our University: this is the purpose of the questionnaire, created by an internal work group, and distributed to a community formed by doctoral students, post-doc, researchers and professors of the Institution.

The questionnaire is available from today until February 16th, 2018.

Answers will be discussed and analyzed in the “gap analysis” ; an “action plan” will be built on the base of such analysis with the intent to minimize the detected deficits.

Your contribution is very important for a reliable and constructive action plan. That is why we ask you for the utmost collaboration in participating and disseminating the initiative.

The Rector
Prof. Alberto Coen Porisini

The questionnaire is anonymous.

It takes about 20 minutes and is available at this link:
